

BKOOOL

2019 / 2020 SEASON

Welcome to Bkool

BKOOL

Welcome to Bkool, the unlimited experience.

Give it a try.

Dare to jump in. Immerse yourself in an ever changing world that broadens while you explore. Don't give up. Invite your friends, build a team. It could be your partner, it could be your colleagues. Share this mind-blowing experience as stroke after stroke, you discover more than just new horizons: you discover you.

Put yourself to the test with adrenaline and sweat. Laugh. Shout. Compete – or don't. Challenge. Be challenged. Give it your all. The world is round, so let's roll with it. Unleash the potential of an unlimited journey full of sensation and emotion.

Are you in? Sign up here!

BKOOOL

Bkool Cycling Simulator

Unleash the potential of an unlimited journey, full of sensation & emotion.

Unlimited Rides

Discover thousands of 3D- and video-based routes, from the Alps to New York.

Infinite Teammates

Compete in dynamic online challenges & leagues. Ride with friends or by yourself.

Immersive Weather

With 3D RealWeather™ for real-time weather conditions, making each ride unique.

Ultimate Connectivity

Connect to Strava™, Garmin™, or Training Peaks™ for infinite data analysis.

Unlimited Rides

With thousands of routes available from around the world, the Bkool Cycling Simulator is the perfect companion for working up a sweat.

From the Alpe d'Huez to Central Park

With 3D- or video-based rides available, there's a Bkool route available for all levels of cyclists. Or just upload your own GPX files to enjoy your favorite rides.

Real Weather (™)

Bkool's patented Real Weather technology is an exclusive training tool for riders looking to reproduce race conditions on any given route. Experience real-time weather and daylight conditions anywhere in the world.

Infinite Competition

The Bkool universe is an ever growing community of cyclists and teammates, with leagues, competitions and velodrome challenges just a click away.

Multiplayer

Join a challenge or ride with friends. Bkool multiplayer challenges give you that real race-feel as you race against riders from around the world.

Leagues

Join a league and vie for prizes from Bkool sponsors or even create your own. Leagues in Bkool offer long- and medium-term incentives to train and ride and bring eRacing to a different level.

Prizes

All year round there are incentives to ride on offer in the Bkool Cycling Simulator. Connect to Bkool's social media channels and listen out for chances to win.

Velodrome

Fun on the boards isn't limited to 6-day racing. The Bkool velodrome is the place to ride if you're looking for something different. Get the adrenaline pumping with cycling games and classic races.

PushYour Limits

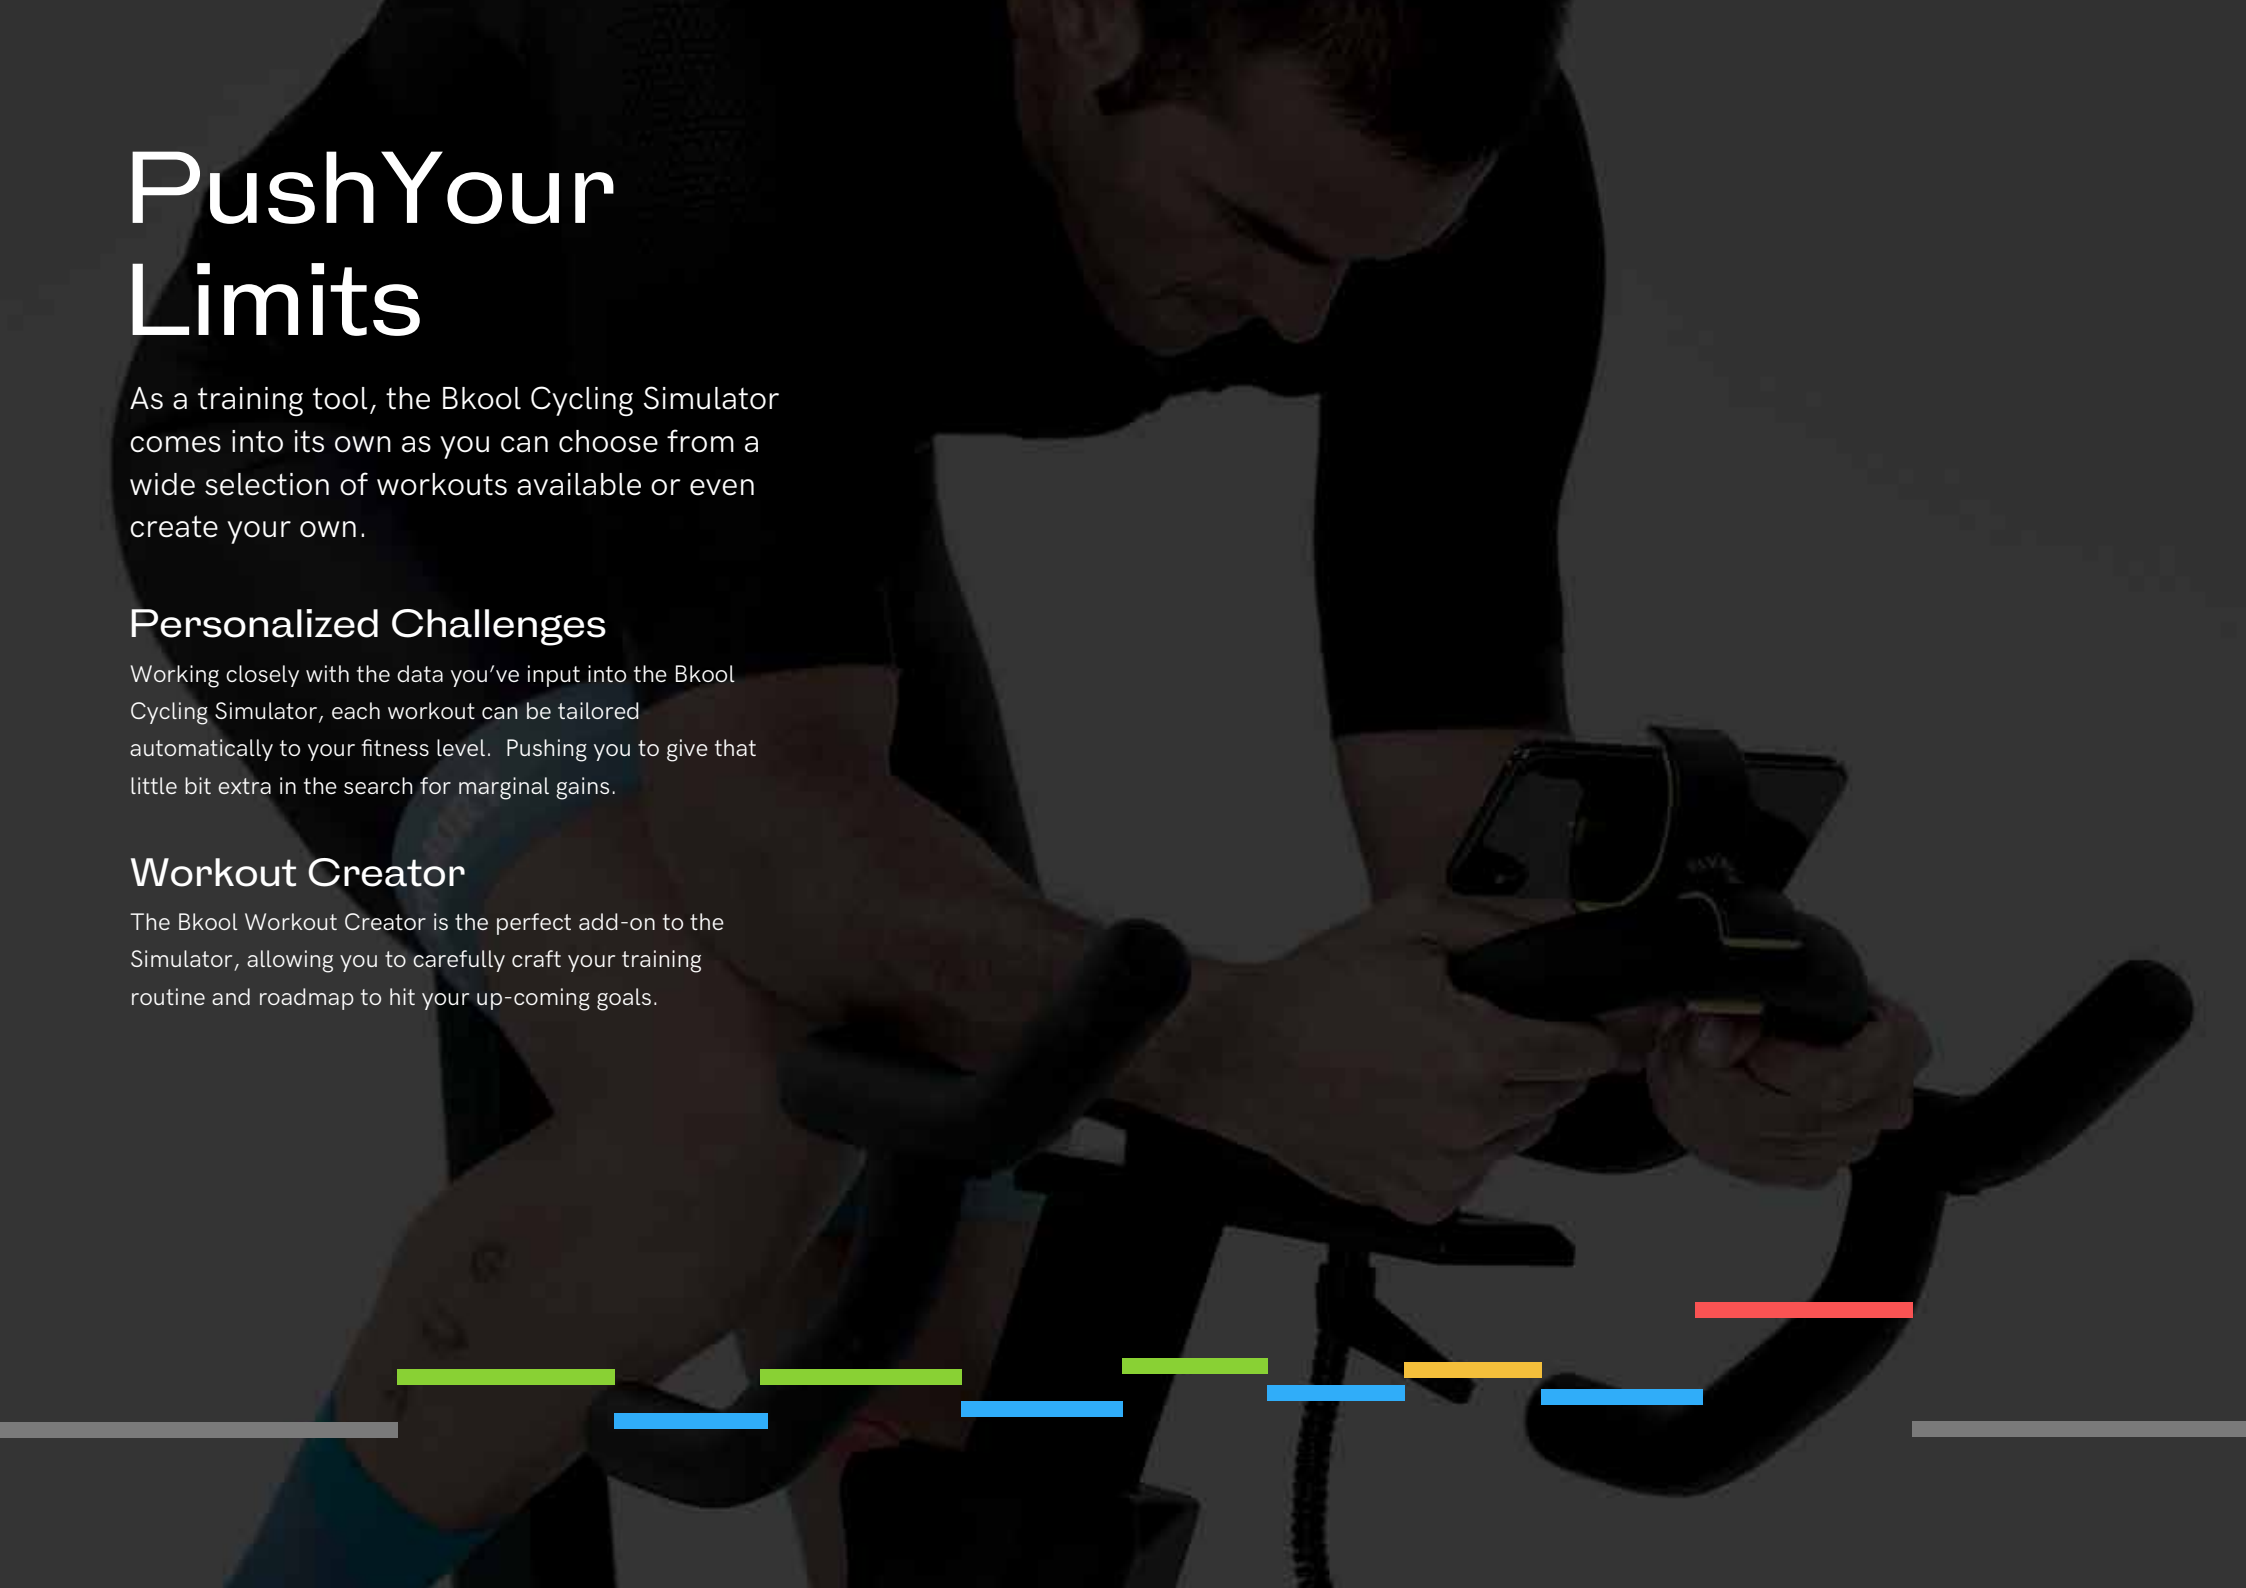

As a training tool, the Bkool Cycling Simulator comes into its own as you can choose from a wide selection of workouts available or even create your own.

Personalized Challenges

Working closely with the data you've input into the Bkool Cycling Simulator, each workout can be tailored automatically to your fitness level. Pushing you to give that little bit extra in the search for marginal gains.

Workout Creator

The Bkool Workout Creator is the perfect add-on to the Simulator, allowing you to carefully craft your training routine and roadmap to hit your up-coming goals.

Connecting With The Best

The Bkool Cycling Simulator becomes your coach's best friend and your perfect training partner, connecting automatically with your key training tools and helping you optimize all your training time

Bkool Fitness App

The Bkool Fitness app has been developed to take full advantage of the features and functionality of the Bkool Smart Bike, making it the ideal companion for a complete immersive indoor cycling experience, and putting you in control of your fitness.

App Store

Google Play

Working to your rhythm

Hundreds of video-based classes with world-class instructors are available. Each class, available in either English or Spanish, is carefully constructed to ensure you hit specific fitness objectives designed for all levels of exercise from beginner to advanced.

Sweat smarter

Unleash the full potential of the Bkool Smart Bike with the Bkool Fitness app. Just download the app and choose the Bkool Smart Bike via Bluetooth to start working out. It's that simple.

All the data at your fingertips

The app provides a wealth of information on screen and in real-time to ensure you're on track with your training, with data on calories burned, suggested effort versus your real effort, suggested RPM versus your real RPM and, if you have a heart rate monitor connected, it will also show heartbeat per minute.

Each class is divided into blocks of effort, with a visual guide to maintain your personal effort in the zone.

Optimal viewing options

The app is available for tablets and phones on both iOS and Android.

Smart Bike 2

Unlimited, intelligent fitness.

The fully redesigned Bkool Smart Bike 2 leads the next generation of exercise bikes, providing an intelligent, plug-and-go interface with a dedicated fitness app that you can use on phones or tablets, and putting you in control of your fitness.

**Automatic

**Up to 1,500W
at 120rpm**

The Bike adapts to you

A quick test through the Bkool Fitness app and the bike will customize its resistance to your level.

The heart of the Bkool Smart Bike lies with how it interacts with the app, with the magnetic resistance of the Bike's silent fly-wheel controlled automatically depending on the workout or fitness class you've selected.

As you improve over time, the Bike will continually, and automatically, adapt accordingly.

Multiple options for an immersive indoor cycling experience.

Bkool Fitness App

Each Bkool workout class features quality music and fitness instructors at the top of their game.

Bkool Cycling Simulator

For the keen cyclist, the Bike will also connect with the Bkool cycling simulator, providing access to unlimited 3D and video-based routes, workouts and velodrome sessions around the world.

BKOOOL CYCLING

A great fit for optimum riding

Your saddle

A universal seat clamp means you can easily install your favorite saddle. Because we all have our personal preference.

The perfect position

The v-shape design allows the Bike to fit any man or woman between 160cm and 195cm tall by simply adjusting the saddle height, handlebar height, and handlebar reach. Micro-measurements on the stem and seat post allow for precision adjustment.

The handlebars

A new, multi-position handlebar offers a full range of hand positions so you can ride comfortably.

Optimized Q factor

A narrower Q factor at just 188mm ensures smoother pedalling, improved stance and greater overall comfort.

Innovative gear shifting

The bike handlebars has two built in buttons to allow you to easily swift gears and adjust the resistance at any time.

Smart Bike 2

Resistance	Friction-free system of permanent magnets
Power	850 W at 90 rpm / 1,500 W at 120 rpm
Communications	Wireless ANT+ and Bluetooth Smart
Drivetrain	Completely silent poly-V belt
